Profile

Motivated and passionate Software Development undergraduate at the Sri Lanka Institute of Information Technology (SLIIT) with hands-on experience in Java, MERN stack, and web application development. Skilled in building clean, efficient, and user-friendly software solutions using modern technologies. Eager to apply technical knowledge, learn continuously, and contribute to real-world IT projects in a professional environment.

Education

Ordinary Level (O/L)	Jan 2009 - Dec 2019
Gothami Vidyalaya, Gampaha	
BUDDHISM	A
SINHALA LANGUAGE & LITT.	A
ENGLISH LANGUAGE	A
MATHEMATICS	A
BUSINESS & ACCT. STUDIES	A
HEALTH & PHYSICAL EDUCAT.	A
DRAMA & THEATRE(SINHALA)	B
HISTORY	C
SCIENCE	C
Advanced Level (A/L)	Jul 2020 - Feb 2023
Ananda College, Colombo	
ECONOMICS	A
ACCOUNTTNG	A
BUSINESS STATISTICS	C
GENERAL ENGLISH	B

Bachelor of Science in Information Technology

Nov 2023 - Present

Sri Lanka Institute of Information Technology (SLIIT)

Certificates

British Council Upper Secondary 3

Mar 2020

Completed with excellent results.

Projects

Ceylon Mart – Grocery Management System (MERN Stack)

- Developed the User Management module including user registration, login, and role-based access control
- Implemented authentication and validation using modern web standards
- Used MongoDB, Express.js, React, and Node.js
- Followed modular and scalable coding practices

Examination Management System (Java Servlets)

- Developed a web-based system to manage examinations, students, and results
- Implemented MVC architecture for better separation of concerns
- Used JDBC for database connectivity
- Designed and managed the database using MySQL
- Applied server-side validation and session management

Vehicle Rental System – User Management Module

(HTML, CSS, JavaScript, PHP , SSMS)

- Developed the User Management module for a web-based vehicle rental system
- Implemented user registration, login, and logout functionality using PHP
- Applied server-side validation to ensure secure and reliable user input handling
- Designed and managed the database using SQL Server Management Studio (SSMS)
- Performed CRUD operations on user data using SQL queries

University Lecture Management System (Android App – Kotlin)

- Built an Android application to manage lecture schedules, attendance, and course information
- Implemented notifications and student–faculty interaction features
- Used Kotlin and XML following Android best practices
-

Habit Tracker (Android App – Kotlin)

- Developed an Android application to track daily habits and build routines
- Implemented local data persistence using SharedPreferences
- Included progress tracking, statistics, and reminder features
