PROFILE

Software Development undergraduate at **Sri Lanka Institute of Information Technology (SLIIT)** with hands-on experience in Java, MERN Stack, and web application development. Skilled in building efficient, user-friendly software solutions and passionate about learning new technologies, solving real-world problems, and contributing to innovative IT projects

EDUCATION

Bachelor of Science in Information Technology	Nov 2023 – Present
Sri Lanka Institute of Information Technology (SLIIT)	
Advanced Level (A/L) – Ananda College, Colombo	Jul 2020 – Feb 2023
Economics (A), Accounting (A), Business Statistics (C), General English (B)	

CERTIFICATIONS

British Council Upper Secondary 3 – Completed with excellent results	Mar 2020
Full-Stack React with Spring Boot: Unit 1 – Pearson / Coursera	Jan 2026
Getting Started with MongoDB Atlas – MongoDB, Inc.	Apr 2026
Schema Design Patterns – MongoDB, Inc.	Apr 2026
Replication in MongoDB – MongoDB, Inc.	Apr 2026
MongoDB Atlas Security – MongoDB, Inc.	Apr 2026

TECHNICAL SKILLS

Languages: Java, Kotlin, JavaScript, PHP, HTML, CSS, SQL

Frameworks & Libraries: React.js, Next.js, Node.js, Express.js, Spring Boot, Socket.IO, Android SDK

Databases: MongoDB, MySQL, SQL Server (SSMS)

Tools & Platforms: Git, GitHub, Android Studio, VS Code, POSTMAN, Playwright

PROJECTS

STUEDU – Tutor Management System	React, Node.js, MongoDB, Playwright
- Full-stack web application transforming how students connect with peer tutors - Features session booking, real-time chat, and an admin analytics dashboard - Implemented end-to-end testing with Playwright for reliability and quality assurance	

Serendib Travels – Sri Lanka Tourism Explorer	Next.js, Tailwind CSS
- Developed a responsive tourism website to explore Sri Lankan destinations and travel packages - Implemented dynamic destination and tour detail pages using Next.js App Router - Created modern UI components, search functionality, and validated contact forms - Applied component-based architecture and responsive design principles for an optimized user experience	

Tic Tac Toe Multiplayer Game

React, Node.js, Express.js, Socket.IO

- Developed a real-time multiplayer Tic Tac Toe web application with room-based gameplay and live synchronization
- Implemented game logic including turn management, win/draw detection, and real-time updates using Socket.IO
- Built a responsive React frontend with dynamic game rooms and interactive user experience

Smart Campus Hub – Campus Management System

React, Spring Boot, MongoDB

- Streamlines facility management, resource booking, and maintenance ticketing
- Implemented role-based access control (RBAC) and Google OAuth2 authentication
- Built full-stack using React frontend with Spring Boot REST API backend

Ceylon Mart – Grocery Management System

MERN Stack

- Developed the User Management module including user registration, login, and role-based access control
- Implemented authentication and validation using modern web standards
- Used MongoDB, Express.js, React, and Node.js following modular and scalable coding practice

Examination Management System

Java Servlets

- Developed a web-based system to manage examinations, students, and results
- Implemented MVC architecture and JDBC for database connectivity
- Designed and managed the database using MySQL with server-side validation and session management

Vehicle Rental System – User Management Module

HTML, CSS, JavaScript, PHP, SSMS

- Developed user registration, login, and logout functionality using PHP
- Applied server-side validation and performed CRUD operations using SQL queries
- Designed and managed the database using SQL Server Management Studio (SSMS)

University Lecture Management System

Android App – Kotlin

- Built an Android application to manage lecture schedules, attendance, and course information
- Implemented notifications and student–faculty interaction features following Android best practices

Habit Tracker

Android App – Kotlin

- Developed an Android application to track daily habits and build routines
- Implemented local data persistence using shared Preferences with progress tracking and reminders
